

This Side Up Stage Plot

This Side Up PA Equipment and Lighting Requirements:

- 1) 6 Vocal mics with stands
- 2) 6 Instrument mics, 1 for each guitar amp, 1 for each horn
- 3) 7 Direct Boxes – 1 Keyboards, 1 Ukulele, 1 Acoustic Guitar, 4 Electronic Drums (Kick, Snare, Toms, Cymbals)
- 4) The Bass amp has a low Z out to connect to the PA system
- 5) 7 Monitors with a minimum of 3 separate monitor mixes (5 separate mixes preferred)
- 6) A professional lighting system providing lighting for the stage and dance floor

This Side Up has every instrument run through the PA system to keep stage volume low and full volume control through the “Front of House”

Recommended stage size 12' deep x 24' wide
Minimum stage size 12' deep x 20' wide
